

DBMaker/DBMaster FAQ Document

Question:

How to install JDBC type3 as Windows Service? (DBMR3162)

Answer:

1. Unzip attached JettyService.zip (3 files) in dbmaker\5.4\jetty
 - a. install-service.bat
 - b. JettyService.exe
 - c. bin\JettyService.exe

2. Run cmd as Administrator

> cd dbmaker\5.4\jetty

> install-service.bat

Note: you can edit install-service.bat if necessary.

3. > JettyService.exe

Set service with GUI => "DMJDBC Type3 Service"
